Thajira WorkFlow – Simple Project & Task Management Software

Designed for Zeecorp – Easy, Clean & Zero Complexity

1. What This Software Does

Thajira WorkFlow is a simple **web-based application** where Zeecorp can:

- Track all projects in one place
- Assign tasks to staff
- View progress updates instantly
- Get automatic email alerts
- Monitor deadlines clearly
- Upload files & site photos
- Receive daily and weekly progress reports

Everything runs completely on the **web**, without needing a mobile app. Your team can open it from **any browser** on phone, tablet or laptop.

2. How Your Team Will Use It (Daily Workflow)

1. Login to the Web Portal

Each staff member gets a username & password. They can log in from:

- Laptop
- Desktop
- Mobile browser
- Tablet

No app download needed.

📍 Chennai, India | 🌐 www.thajiratechworks.com | ✉ thajirtechworks@gmail.com

2. Create Projects Easily

Managers can create different types of projects such as:

- Villa Renovation
- Commercial Building
- Interior Design Work
- Structural Projects

They can enter:

- **Project Name**
 - **Start & End Date**
 - **Client Information**
 - **Project Description**
 - **Upload drawings, BOQs, or documents**
-

3. Add Tasks Inside the Project

Managers can create tasks like:

- Site Inspection
- Sketch Preparation
- Material Follow-Up
- Carpentry Work
- Electrical Setup
- Final Finishing

For each task they can set:

- **Task Title**
- **Deadline**
- **Priority (Low/Medium/High)**
- **Assigned Team Member**
- **Description**
- **Attachments (photos, PDFs, drawings)**

📍 Chennai, India | 🌐 www.thajiratechworks.com | ✉ thajirtechworks@gmail.com

4. Automatic Email Notification for Assigned Tasks

When a task is assigned:

- The staff receives an **instant email**
- The email contains **task details, deadline, and project info**

This keeps everyone informed without extra follow-up.

5. Staff Updates Tasks Directly from the Web

From their mobile browser or laptop, staff can:

- **Update progress (0% to 100%)**
- **Mark the task as completed**
- **Upload site photos or files**
- **Add comments**
- **Update status (To-Do → In-Progress → Done)**

Everything is quick and works like **WhatsApp-style commenting** inside the task. Updates appear **immediately** on the manager's screen.

📍 Chennai, India | 🌐 www.thajiratechworks.com | ✉ thajirtechworks@gmail.com

6. Real-Time Dashboard for Managers

Managers get a live dashboard showing:

- Today's progress
- Tasks completed
- Tasks delayed
- Tasks upcoming
- Per-project progress circle
- Team performance
- Files uploaded
- Project overview

All updates happen in **real time**, no refresh needed.

7. Automatic Reminder & Alert Emails

The system automatically sends:

- ◆ Task Assigned
- ◆ Task Due Soon
- ◆ Task Overdue
- ◆ No Progress Update Alert
- ◆ Escalation to Manager
- ◆ Daily Summary Email
- ◆ Weekly Project Report

Managers don't need to repeatedly call or message team members.

📍 Chennai, India | 🌐 www.thajiratechworks.com | ✉ thajirtechworks@gmail.com

8. Daily & Weekly Reports

Daily Report Includes:

- Pending tasks
- Completed tasks
- Overdue items
- Photos added
- Overall progress

Weekly Report Includes:

- Complete project summary
- Delays
- Completed work
- Next week items
- Timeline chart

Both are clean and easy to share.

9. File & Photo Uploads

Any team member can upload:

- Site images (from phone browser)
- PDFs
- Sketches
- Drawings
- Documents
- Screenshots

Files stay **neatly organised** within each project and task.

📍 Chennai, India | 🌐 www.thajiratechworks.com | ✉ thajirtechworks@gmail.com

10. Activity History (Full Transparency)

Every action taken on the system is recorded:

- Who updated
- What changed
- When updated
- Status changes
- File uploads
- Comments

You always know the **full history** of your project.

3. Complete End-to-End Web Workflow (Shareable One-Pager)

- 1 Staff logs in from browser
 - 2 Manager creates a new project
 - 3 Manager creates tasks
 - 4 Assignee gets an email
 - 5 Staff updates progress from the web
 - 6 Manager sees updates instantly
 - 7 System sends reminders automatically
 - 8 Daily & weekly reports sent to email
 - 9 Files and photos organized neatly
 - 10 Project gets completed & report exported
-

📍 Chennai, India | 🌐 www.thajiratechworks.com | ✉ thajirtechworks@gmail.com

4. Zeecorp Benefits

- No confusion
- No complicated UI
- No missed deadlines
- No communication gaps
- No manual follow-ups
- Fully trackable
- All documents in one place
- Suitable for onsite & office teams
- Fully online
- Extremely simple for all ages to use

User Roles

“Three simple roles: **Admin, Manager, Staff** — each with access only to what they need.”

Search, Filters & Sorting

“Quick search and smart filters allow users to find tasks, projects, or files instantly.”

📍 Chennai, India | 🌐 www.thajiratechworks.com | ✉ thajirtechworks@gmail.com

Conclusion

Thajira WorkFlow is designed with one clear goal — to give Zeecorp a **simple, modern, and powerful** way to manage projects without the complexity of heavy tools like Jira or Zoho.

This system ensures **zero confusion, zero delays, and zero missed updates**, helping your team work together smoothly — whether they are in the office or at the site.

We are committed to delivering a platform that your entire team can start using from Day One — **without training, without complications**, and without changing the way you already work.
Just simpler. Just smarter.
